** These numbers reflect the final current status of each graduate's questionnaire at close-out, rather than cumulative totals for each category. The numbers in this report are from the Receipt Control system, and do not reflect minor changes to the 2001 universe (e.g., deletion of duplicates; FY 2000 cases moved to FY 2001, etc.) made during quality control and final reconciliation of the file. Due to these changes, the final FY 2001 response rate was 92.1%.
